Innovative Engineering

Twin over-the-wing GE Honda turbofan engines power the Elite S to 480 mph. Honda's patented placement dramatically reduces cabin noise and maximizes interior space — creating a bright, airy cabin that feels far larger than its class.

Over-The-Wing Engine Design

Advanced Avionics & Safety

The Garmin G3000 suite features advanced navigation and safety systems that keep every journey on course and on time.

Garmin G3000 Flight Deck

A Cabin Crafted for Comfort

Six passengers travel in a beautifully appointed interior with four-seat club seating, premium leather, a door-facing seat, and a belted seat in the fully enclosed private lavatory — comfort typically reserved for much larger aircraft.

Premium Leather & Wood Accent Tables

Nonstop from Atlanta

From Atlanta, the Elite S reaches New York, Chicago, Dallas, Kansas City, Omaha, Miami, and into the Caribbean nonstop — the Eastern Seaboard, Midwest, and beyond are all within effortless reach.

Fully Enclosed Private Lavatory

Whether you are traveling for business or pleasure — arrive swiftly, comfortably, and in style.
